Carol Coup d'etat as Life Chicago's downtown night life today by Judge C. C. Cliffe, who ordered three cafes closed for a year, each under the abatement of a nuisance provision

ANNOUNCED Direct Wire to Connect United States and Capital

In effect, Judge Cliffe decided that one guess was enough as to why frequenters of the night cubs go to cabarets, pay stiff cover clarges and are satisfied with a serving of ginger at all and ice on which there is likewise a stiff charge By permitting custo-to mers to bring their own and let the waiters help them out, the cabaret proprietors make their piaces public nuisances, the court ruised.

E. C. Yellowley, prohibition administrator here, was jubliant over the ruiling and said he had a long list of other piaces that he would also warn hotels and restaurants that similar action would be warranted in their case under similar circumstance. The cafe owners said they would appeal the decision and expected to carry he case to the United States Supreme Court, if necessary.

NEW YORK, Dec. 7. (Exclusive)—Night clubs and cabarets of New York that now cater to the all-night trade will be compelled after January 1, 1971, to close their doors at 3 o'clock in the morning, for Mayor walker's "curfew bill" passed the Board of Aldermen this afternoon and will bed on law as soon as the Mayor has affixed his signature.

The bill was passed after a sharp debate in which Mrs. Ruth Pratt, and submitted a report through its chairman, Alderman Solomon, laying blame for the roaring in the "roaring forties" upon the "vild strangers" in the city's midst.

The vote was nevertheless overwhelming—88 to 2. Although Mrs. Pratt criticised the bill she voted for it.

House of Representatives and insure gency arose among legislastors because by the Senator's decline in match and serious illness of solstic rheumattism.

Aside from his political career, Senator McKinley was best known for his contributions to educational and religious institutions. His philanthropies were unattended by publicity, but his friends estimated in 1825 that his gifts to education had passed the million-dollar mark.

Farty regularity was a cardinal principle with McKinley. He was a friend and neighbor of "Uncle Joe" Cannon of Danville, who represented the Eighteenth Congress District, adjoining McKinley's old district, the Nineteenth, in the days when Cannon was known as the "czar" of the House of Representatives and insurgency arose among legislators because of party discipline.

The President renews his expression of opposition to the principles embodied in the Menary-Haugen plan for dealing with agricultural surpluses saying: "In working out this problem to any sound conclusion it is necessary to avoid putting the government into the business of production or marketing or attempting to cancel legislation for the purpose of price fixing. The farmer does not favor any attempted remedies that partake of these remedies."

legislation to expedite these projects."

In discussing reclamation problems he expresses further sympathy for the Colorado River development program, asserting that "it is increasingly evident that the Federal government must in the future take a leading part in the impounding of water for conservation with incidental power for the development of the irrigable lands of the arid region. The unused waters of the West are found mainly in large rivers. Works to restore and distribute these have such magnitude and cost that they are not attractive to private enterprise. Water is, the irreplaceable natural resource. Its precipitation cannot be increased. Its storage on the higher reaches cutreams, to meet growing needs, to be used repeatedly as it flows toward the seas, is a practical and prudent business policy."

Noting the increasing satisfactory operation of government reclamation projects which increased the value of combined production from al10,000,000 in 1924 to \$131,000,000 in 1925, the President recommends that the Congress continue to study and give attention to this subject in order that the needs of the future may be intelligently met.

At the last assion we made an immediate increase in the annual budget of more than \$100,000.000 in benefits conferred on the veterans of three wars, public buildings, and river and harbor improvement. Many projects are being broached requiring further large outlays. I am convinced that it would be greatly for the welfare of the country if we avoid at the present session all commitments except those of the most pressing nature. From a reduction of the debt and taxes will accrue a wider benefit to all the people of this country than from embarking on any new enterprise. When our war debt is de-

we should confine ourselves to expenditures of the most urgent necessity.

The Department of Commerce has
performed a most important function in making plans and securing
support of all kinds of national enterprise for the elimination of waste.

Efficiency has been greatly promoted
through good management and the
constantly increasing co-operation of
the wage-earners throughout the
whole realm of private business. It
is my opinion that this whole dewelcoment has been predicated on the
foundation of a protective tariff.

Continuance of Economy for Tappayers Benefit with the second place of the continuance of

synthetic chemistry for the production of nitrates.

A survey should be made of the relation of government grazing lands to the live-stock industry. Additional legislation is desirable more definitely to establish the place of grazing in the administration of the national forests, properly subordinated to their functions of producing timber and conserving the water supply. Over 180,000,000 acres of grazing lands are still pastured as commons in the public domain with little or no regulation. This has made their use so uncertain that it has contributed greatly to the instability of the livestock industry. Very little of this land is suited to settlement or private ownership. Some plan ought to be adopted for its use in grazing, corresponding besafty to that already successfully applied to the national forests.

It has assumed a meance that is of national magnitude and warrants the Federal government in extending its co-operation to the state and local agencies which are attempting to prevent its further spread and secure its eradication. The whole question of agriculture needs most careful consideration. In the past few years the government has given this subject more attention than any other and has held more consultations in relation to it than on any other and has held more consultations in relation to it than on any other subject. While the government is not to be blamed for failure to perform the impossible, the agricultural regions are entitled to know that they have its constant solicitude and sympathy. Many of the farmers are burdened with debts and taxes which they are unable to carry. We are expending in this country many millions of dollars, each year to increase farm production. We ought now to put more emphasis on the question of farm marketing. If a sound solution of a permanent nature can be found for this problem. BITUMINOUS COAL

No progress appears to have been made within large areas of the bituminous coal industry toward creation of voluntary machinery by which greater assurance can be given to the public of peaceful adjustment of wage dimeulties such as has been accomplished in the anthracite industry. This bituminous industry is one of primary necessity and bears a great responsibility to the nation for continuity of supplies. As the wage agreements in the unionized section of the industry expire on April 1, next, a.d. as conflicts may result which may imperil public interest, and have for many years often called for action of the Executive in protection of the public, I again recommend the passage of such legislation as will assist the Executive in dealing with such emergencies through a special temporary board of conciliation and mediation and through administrative agencies for the purpose of distribution of coal and protection of the consumers of coal from profitering. At present the Executive is not only without authority to act, but is actually prohibited by law from making any expenditure to meet the emergency of a coal famine.

JUDICLARY

The Federal courts hold a high position in the administration of justice in the world. While individual judicial officers have sometimes been subjected to just criticism, the courts as a whole have maintained an exceedingly high standard. The Congress may well consider the question of supplying fair sajaries and conferring upon the Supreme Court the same rule-making power on the law side of the district courts that they have always possessed on the equity side. A bill is also pending providing for retirement after a certain number of years of service, although they have not been consecutive, which should have your favorable consideration. These faithful servants of the government are about the last that remain to be provided for in the postward readjustments.

with some eastern eleven in the local stadium.

Brother Jones also had some ideas about the yanking of Don Williams in the fourth quarter of the Notre Dame game which he wants to air. He writes as follows: "Will always feel that Coach Jones erred in not permiting Don Williams to go through with place kick instead of yanking him. We had nothing to lose and it would have (if successful) given us 15 and Notre Dame 13. It was worth trying for. Elliott punted out of bounds at 17-yard line and the Incompleted kick

would have come back to the 20-yard line. In either case we would have lost the mil."

Credit Mister Dean Snyder, the quiet genius who puts Jack Doyle's fights on the map, with the best line about the Notre Dame game, as follows:

"Fightin' Irish! H:--! A German named Niemic scored the touchdown that best U. S. C., and a southpaw Frenchman named Parisien threw the pass to the Hun that got the honey."

By the way, while it has been mentioned that Pee-Wee Parisien also won another big game for the Irish this year with his uncanny forward passing—the 6-to-0 victory over Northwestern—it had not been pointed out that he won its under almost identically the same circumstances as existed at the U. Passidena next New Year's Day, the name of Winslett will in all probability be very conspicuous in the day's gridiron doings.

You may have seen Winslett's name at end on various All-American teams lately. Competing for one of the two wing jobs with men like Broda of Brown, Hanson of Syracuse, Coasterbaan of Michigan. Shipkey of Stanford, and various other high-class ends, is quite a job. But "Wu's" chief claim to recognition is that he is the greatest threat of the 1926 "Crimson Tide," and that is saying a lot when you consider that there are bell-carriers like "Red" Barnes, "Red" Brown, and "Rosey" Caldwell in the backfield. Winslett, although Exceedingly effective defensively (not a single first down has been made around his end this season,) is, however, even greater on the offense, for he often carries the ball, either plunging into the line or skirting the ends. He is probably the greatest passer in the South today, and also a great receiver of passes. Three of his passes beat Georgis Tech, 21 to 0, and it has been the same against Vanderbilt, Florida, and the other southern teams that the Crimson Tide has enguifed this season. Until last season Cooper was one of the best southpaws in the National League. He first broke into the major-league limelight while pitching for the Pittsburgh Pirates. In the winter of 1924 Cooper, along with "Rabbit" Maranville and Charley Grimm, went to the Chiengo Cubs in the famous trade that sent Via Aldridge, George Grantham and Dick Nichaus to Barney Dreytuss's Buccaneers,

Niehaus to Barney Dreyfuse's Buccaseers.

In 1925 Cooper had a good year with the Cubs, topping the National League hurlers in the matter of control. Last spring, though, Wilbur suffered an arm injury in spring training and never did regain his winning form. In midseason he was shipped to the Detroit Tigers for the waiver price and, after a short trial with Ty Cobb's club, was given his release.

celease.

Oakland fans and scribes around the Bay section have long been after Ivan Howard's scalp because he was not peppery enough to suit them. Unless Cooper has changed since his pitching days, he will not be able to supply much more dash on the coaching lines than did his predecessor.

"Dutch" Meyers is bemoaning the fate that will keep him out of Bert Colima's corner in the latter's fight with Joe Roche at Hollywood Friday night. "Dutch" was disqualified for thirty days because he jumped into the ring at Vernon during the course of the Faul De Bate-Mushy Callahan fracas. The entrance of "Dutch" was occasioned by a desire to get his fighter to his corner because he was out on his cet although not counted out. As a result De Hate's technical knockout goes down in the books as a disqualification instead of a knockout.

The Globe team is made up of Walter Broadfoot of Vancouver as goal tender. Lloyd Cook, who has played pro hockey for a number of years one of the best players in the game today. Cook and Jerry Mooney will hold down the two defense positions. Mooney halls from Montreal.

The close strength of Globe is fast and furious and should score against any team. The line-up is Leo Cook, center; Dave Smith and Louis Coupe, forwards. The former came in from Vancouver, and the latter arrived from Winnipeg several days ago.

Silas H. Strawn, Esq., was sent to
China as American commissioner to
co-operate with commissioners of the
other powers in the establishment of
a commission to inquire into the
present practice of extraterritorial
jurisdiction in China, with a view
to reporting to the governments of
the several powers their findings of
fact in regard to these matters. The
commission commenced its work in
January, 1926, and agreed upon a
joint report which was signed on
September 18, 1926. The commission's report has been received and
is being studied with a view to determining our future policy in regard to the question of extraterritorial privileges under treaties between the United States and China.
The preparatory commission for the
Disarmament Conference met at Geneva on May 18 and its work has
been proceeding almost continuously since that date. It would be preneva on May 18 and its work has been proceeding almost continuous-ly since that date. It would be pre-mature to attempt to form a judg-ment as to the progress that has been made. The commission has had before it a comprehensive list of questions touching upon all as-pects of the question of the limita-tion of armament. In the commis-sion's discussions many differences of contino have developed. Hower, I sion's discussions many differences of opinion have developed. However, I am hopeful that at least some measure of agreement will be reached as the discussions continue. The American representation on the commission has consistently tried to be helpful, and has kept before it the practical objective to which the commission is working, namely, actual agreements for the limitation of armaments. Our representatives will continue their work in that direction.

continue their work in that direction.

One of the most encouraging features of the commission's work thus
far has been the agreement in principle among the naval experts of a
majority of the powers parties to the
Washington treaty limiting naval
armament upon methods and standards for the comparison and further
limitation of naval armament. It is
needless to say that at the proper
time I shall be prepared to proceed
along practical lines to the conclusion of agreements carrying further
the work begun at the Washington
conference in 1921.

UNFAIR ICING COSTS CITED

Salt River Valley and Central California Charges Compared at Hearing

PHOENIX, Dec. 7. (Exclusive)—The railway refrigeration hearing has closed here, with briefs to be submitted about January 27, next. No early decision is expected, as eighteen similar cases will need to be digested and reported to the Interstate Commerce Commission by Examiner H. C. Barron. In the last day's proceedings evi-s Southern Pacific and Union Pacific dence was submitted that cars from the San Joaquin Valley at Modesto shipped ever the southern route, have to be resiced five times before reaching H Paso, while from the Salt River Valley, under an icing charge \$50 larger than the middle California rate, there is shoppage only at Tucson. Allegations were made that the railroade charge much more for the ice than cost and bring in much ice that might here be obtained at lower expense.

Not admitted in evidence is a statement made by D. B. Wiley, manager of the local farm bursau, that a foundation for the asserted overcharge lies in the fact that the Pacific Fruit Express is owned jointly by the

PERHAPS it is not altogether fair to the older makes of fine cars to try to compare them with the Chrysler Imperial "80".

Standards in everything improve, so it is not surprising that the fine car of yesterday is surpassed by the finer Chrysler of today.

The Imperial "80" is the highest in-terpretation of Chrysler unique and novel engineering and manufacturing plan of uncompromising Quality

And you need no one to tell you that Chrysler Standardized Quality has initiated something new and vital in otor-car manufacture, the effects of which are apparent everywhere in the

"80" should be surely and steadily gaining preference not simply with those who demand the best that money can build-but with those who know the best when they find it.

GILLESPIE IRRIGATION LAND SOLD

Eastern Capitalists Plan Subdivision Near Gila Bend for Dairy Purposes

Announcement was made today of the sale, for about 85,000,000, of the great dillespie Irrigation Project, lying about sixty miles southwest of Phoenix, embracing over 80,000 acres of land north and west of Gila Bend, a forty-mile canal and a multiple arch

forty-mile canal and a multiple arch diversion dam across the Gils River, twenty-three miles north of Gils Bend. Title now is held by the Gils Water Company, in which the president and principal stockholder is P. A. Gillespie of Los Angeles.

Twenty-three per cent of the stock is reported held by three members of the Ainsworth family of Phoenix and Los Angeles. The project is one dating back to the early 90's, promoted by Lewis Wolfley, then territorial governor of Arisons. It later passed under control of the Greenhuts of Papria, Ill., who spent several millions of dollars only to lose their dam in a flood.

of dollar only to lose their dam in a flood.

The concrete dam now in place was completed in June, 1921, after an expenditure of about \$5,000,000 by the Gillespie interests, who also bought 72,000 acres of Santa Fe scrip land to cover most of the area to be served. About 15,000 acres has been planted to cotton by Southern California capitalists who realized little, owing to continued drought.

According to Capt. Howard A. Reed, a local angineer, the purchase has been by a syndicate of eastern capitalists, who plan subdivision of the great true, with especial consideration of the dairy industry.

For twenty miles west of Gila Bend the liand lies along the main line of the Southern Facific Rallway while the entire length of the canal is paralleled by the Phoenix-Yuma automobile highway.

Lemon Sales of Late Running in Better Volume

Lemon sales of the California Fruit Growers' Exchange during late November and early December have run from 25 to 50 per cent greater than in previous years, and there is no accumulation of supplies in the hands of the eastern trade at this time, it was announced yesterday from the lemon sales department of the exchange.

"Retail prices on lemons are as low as we have known in recent years," the report said, "with usany markets feeturing lemons at bargain prices. An improved consumer demand, which we have every reason to expect, will creete a much better situation." With the large supply in Calina, all factors have been busy to maintain widest possible distribution." Lemon sales of the California Fruit

Who Should Buy Trustee Shares
Anyone who believes in the future of
America should feel free to invest a portion of his funds in Diversified Trustee
Shares. These certificates come as close
as it will ever be possible to obtain
"Shares in America." The elder Morgan
once said that it did not pay "to sell
America short." But it does pay handsomely to buy and hold shares in representative American enterprises. Diversified Trustee Shares offer the most convenient means for acquiring a widely diversified interest in Big Business of
America.

A Short-Term Security in Suitable Denomination

THE average investor who has a list of holdings, finds it desirable to include securities of early maturity, and also, perhaps, of small denomination.

The Guaranteed First Mortgage Certi-

ficates of the Mortgage Guarantee Company are obtainable in any denomination (\$100 and multiples) to mature in two to five years. The yield is 6%—tax-free in California.

These Certificates are secured by diversified first mortgages which never exceed 50 per cent of the conservative appraisal values of the pledged properties; in addition to which they are guaranteed as to both principal and interest by the Company—the strongest institution of its kind in the United States outside of New York

There are no coupons to clip. Interest checks are mailed promptly on due dates. If you are not familiar with this safe and convenient form of investment, it will pay you to investigate.

Descriptive booklet will be furnished upon request.

importance is the greater.

"Any international organization for the prevention of war, the promotion of peace and the improvement of international intercourse must in time give adequate consideration to economic problems. The need of raw materials, tariffs, foreign investments, the exploration of territories occupied by backward peoples, higher and lower costs of production, these and many more will force the economic issue to the foreground.

"In case there are grave economic disputes between member States, the machinery of the League and Court is available for their adjustment. While disputes so referred may be of any character, it is to .) expected that economic questions will constitute a part of their agends. Moreover, if there are economic causes of friction the machinery for their removal may be set in motion by the interested States.

"Economic causes are the most important causes of international quarrels. The League must restrain the inordinate use of national power for economic ends. Such abuse of power leads to war. by Article No. 23 member States have agreed to maintain freedom of communication and transit and equitable treament for the commerce of all nations belonging to the League. The Treaty of Versailles arranges for free and open trade over the great river systems and railways of Central Europe.

"The League also makes possible the co-operation of the nations of the world, member and nonember States, in a positive manner to alleviate suffering and to promote prosperity.

TROUBLES ADJUSTED

"By the end of 1924 most of the troubles of Europe from a financial standpoint had been adjusted and the impovertaned countries faced the future with balanced budgets and normal currencies. This was not a matter of accident. It was the result of the application of the scalpel to economic questions and in suit of the application of the scal-pel to economic questions and in some cases the performance of a major operation. In this readjust-ment and recovery the League has had an important part.

"The economic conference to be held in April, 1927, is a manifesta-tion of this tendency toward inter-national co-operation. Its success de-

When a neighbor's pet Boston buildog decapitated her talented parrot with one playful snap of his jaws, Agnes McKernon, 4905 Seventh avenue, suffered a loss that no mere monetary recompense could assuage.

But in view of the fact that the parrot is gone and no instinted amount of sorrowing will bring it back, a matter of \$500 would 'n part lessen the blow of the pet's unexpected demise, the plaintiff explained yesterday in her damage suit before Municipal Judge Baird.

Mrs. McKernon named Frank Hartsell 4812 Seventh avenue, asserted cover of the dog, as defendant in the action.

According to testimony, the untimely execution of the talented parrot cocurred September 2, last, and a moment before the advent of the dog the pairot was swinging, happy and contented, in its cage suspended from a tree in Mrs. McKernon's yard.

Then came the dog and shortly thereafter departed the pariot, an extremely talented bird, its erstwhile owned said. It had been in her possession for four years, and had become an excellent

News vender of a mysterious assailant who fired a revolver apparently from an upper window of an apartment-house. Anthony Latell, 28 years of age, news vender, was shot in the back last night as he was selling papers at Fourth and Bixel streets. Investigation by Detective Lieutenants Emnen and Hermans falled to locate the apartment from which the shot was fired, or to identify the man or woman who handled the weapon. Just before the shot was fired, Latell, according to his statement to police, had been calling:

"Extral All about the big Ormiston scandal."

For several minutes after he had been struck the news vender continued to hawk his wares in ignorance that he had been shot. When he discovered his injury Latell walked to a taxicab station and an ambulance was summoned. At the Receiving Hospital Police Surgeon Saverien stated that Latell was suffering from a flesh wound caused, apparently, by a 22-caliber buillet. The course taken by the missile indicated it had been fired from an upper window of one of the apartment-houses near the spot where Latell had been selling papers.

The Fashion Sections - BULLOCK'S - Third R

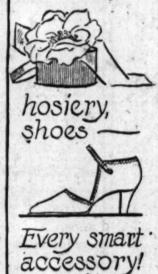

THERE'S a new formality about the evening model We've always worn evening wraps. The new formality insists that it be a certain kind of evening wrap. Jewelry, according to the new code of evening etiquette, is apt to be pearls. Slippers, hosiery, flowers, bags . . . These, too, are very evident when wrong; a perfect part of the perfect whole when right.

Even in color there's a fashionable rating. White, fiesh, green, these take precedence—(though not with you're learned that black is your wisest choice.)

To help with the problems that have arisen with the new formality of the evening mode Bullock's Fashion Sections have gathered together on the third floor-every accessory to the evening mode-correct, complete.

AS FOR THE WELL DRESSED MAN his prerogative is to contribute the perfect background. And to the very least detail it must be-the perfect background.

In collaboration with the women's fashion sections the men's store presents the evening mode of the season to come.

"There is not a duli minute in the present show at Culver City's merriest cate." states a clever theatrical critic, which well expresses the opinion of all who have had an opportunity to see Helena Justa's "Happy-go-Lucky Bevue," now appearing at the Plantation Cafe. Miss Justa is a delightful singer, and is surrounded by a large cast in a revue which in size and talent is second to none on the West Coast.

SAN ; OLD CLASS Barlow's Cafe in Culver City is still the same old merry place, with plenty of good entertainers and a peppy or-chestra. In fact, Joe Marengo and his parmony boys are one of the main reasons for the Washington Boule-rard cafe's continued popularity. A wonderful chicken dinner is being

HOLIDAY SPIRIT

The holiday spirit hovers around sebastian's Cotton Club in Culver City. With a successful Thanksgiving now in the past, plans are already under way for a wonderful program during the coming Yuletide helidays. A clever array of entertainers and a snappy dance orphestra round out a well-balanced program at the Cotton Club.

STEREOSCOPIC PHOTOGRAPHY?

Commodore Blackton, George Spoor Combine for Result; Actress Back from Australia Says Lively There; Antonio Moreno Goes to Europe Again

BY GRACE KINGSLEY

HET call their invention merely by the quite modest-sounding name, "natural vision" photography, do Mesers. George E. Spoor and J. Stuart Blackton. What that means really is that stereoscopic projection, the ive result so long sought for, which will give the world the third dimen-

sion in photography, is at last an achievement, if these optimistic, gentismen's high hopes are realized.

Mr. Blackton told all about the matter at a luncheon yesterday and it would appear that Mr. Spoor, head of the historie Essanay Company, who will arrive here shortly from New York, and Commodore Blackton, founder of Vitagraph, two of the most noted pioneers of the industry, are combining their talents to give the world their supreme achievement — a motion of the world their supreme achievement — a motion of the most noted pioneers of the industry, are combining their talents to give the world their supreme achievement — a motion of the most noted pioneers of the industry, are combining their talents to give the world their supreme achievement — a motion of the most noted pioneers of the industry, are combining their talents to give the world their supreme achievement — a motion of the most noted pioneers of the industry, are combining their talents to give the world their supreme achievement — a motion of the most noted pioneers of the industry, are combining their talents to give the world their supreme achievement — a motion of the most noted pioneers of the industry, are combining their talents to give the world their supreme achievement in the start of the completion of the production.

The invention has been achieved only after years of work, struggle and experiment after experiment, not to mention the expenditure of money amounting to more than \$3,000,000, according to Commodore Blackton.

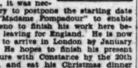

The vehicle which will show the world the new invention is Blackton.

The American, a story suggested by the late Theodore Roosevelt, which is to be produced and directed by Blackton. It is expected that productions will be started by the 18th inst. at the Vitagraph studios here Color will play an important part in the picture, it is said.

Will Rogers to Be Feted

When Will Rogers comes marching home, which won't be long now, he is to be given a reception by his townsmen of Beverly Hills and Hollywood, not to mention Los Angeles.

The brilliant humorist, who had only to quit his native heath and beign to write pieces for the magazines to be acclaimed the greatest American satirist of the day, has been absent from this country during the past several months.

While abroad, Rogers visited Russia, Italy, England and other countries, and the brilliancy of his remarks in various magazines and newspapers, have caused his recognition among the literary folk of his own country. Rogers also worked in a picture and appeared in the music hails in London.

He is resuming his lecture tour in this country, but will srobably join his family in Beverly Hills for the holldays.

"The Little Clay Cart" is being prescrited at the Potbolier Art Theater, and it is the naive event of the present theatrical season. It is one of the best productions offered thus far by this group of coworkers who have been responsible in the past few seasons for many unusual stage offerings. The play itself, incidentally, is one that is enjoying a vogue just at present in New York, where it but recently opened.

ent in New York, where it but re-cently opened.
Frankly, I didn't expect such a fas-cinating melodrama, nor so much gay comedy, nor so embellishing a mood of fantasy in a dream so snotent. But in many respects "The Little clay Cart" is a revelation of all these things, and moreover presents a cu-rious technique of the thester, in which time and space, are reduced to nothing more than a few steps around a pillar in the center of the stage, which represents the annihila-tion of both. Characters are sum-moned and appear no matter how far they are actually supposed to be from the scene of the action in a very few minutes, and by a process that in

The Gredo is sung in the Russian church about forty times during an evening's service. The effect of this chant rising and falling through the vast cathedrais of Russia must be indeseribably impressive. The choir had to repeat it.

Broadway got its first glimpse of a great patriotic picture play under what amounted to government auspices tonight.

The film "Old Ironsides" had its premiere at the Rivoli Theater, with Secretary of the Navy Curtis D Wilbur as its chief sponsor, and the largest number of American admirals ever gathered in New York at one time—twenty-five—in the first-night audience.

The showing of the picture, which is a production of the Famous Players - Lasky Corporation with the co-operation of the Navy, was preceded by a dinner at the Biltmore Hotel by the Save Old Ironsides Fund, at which the Secretary of the Navy spoke, with the twenty-five find the Secretary of the Navy spoke, with the twenty-five find the Secretary of the Navy spoke, with the twenty-five find the Secretary of the Navy spoke, with the twenty-five find the foreign is intrigued by the costain a skirts worn rather long, with red and cid blue bodices and the queenly pear-studded Russian head-ress with its becoming neight. \$1495 Auburn Sport Roadster

It is quite evident the men and women participating in the campaign realize that wholesome effort now will bring rich reward, as for every combination or club of \$30 in new Times subscriptions a bonus of 80,000 extra votes are given, in addition to the usual regular votes.

All eyes are focused on the beautiful \$1495 Anburn Sport Roadster, the immediate objective of candidates during the extra vote period ending Saturday night. All new Roadster will become the property of that candidate whose total amount in new subscription payments turned in during two weeks continued to show their real atrength east in the field. More than one candidate is hopeful of winning, not alone the roadster, but another automobile of the thirty to be given at the end of the campaign.

ployase quit work in seven plants. There are in all about twelve plants, amploying more than 125 persons. At a meeting afondsy night representatives of the Cibaners' and Dyers' Association, affiliated with the Americah Federation of Labor, imperatively demanded that employers sign a union agreement. The employers asked for a week's time, which, they say, was granted. Yesterday morning, despite this understanding, the strike was called. Employers met later at the Union Dye Works and went on record as flatly refusing to sign the union contract. It was stated arrangements have been made for the protection of plants and employees.

For some time past, it is said, organizers have been at work in the district attempting to lay the foundation for a movement for union recognition.

KANSANS MEET TOMORROW The Kansas reunion tomorrow evening will offer a popular program in their hall at 246 South Hill street. Frank Mead in vaudeville stunts, Mary Harvey in cornet numbers, accompanied by Miss Rebeccs Harvey, and Mrs. John Bixler, soloist, accompanied by Miss Dorothy Bixler, are to be features. H. J. Brubsker will lead the community singing and there will be roll call of counties and prise awards and dancing. All the Jayhawkers are invited, including the tourists.

STORE OPEN SATURDAY EVENING!

and conviction" of possible murderers of the baby was offered Monday in an anonymous circular which pro-vided a new impetus to a search which started last June, when the child was born after its parents, who

are minors, had separated.

The note was printed on a torn piece of ledger paper, Mrs. Donald Roberts, the baby's grandmother, said last night, and was signed with what appeared to be a rough drawing of a snake. It read:

Roberts, the baby's grandmother, said last night, and was signed with what appeared to be a rough drawing of a snake. It read:

"We have baby. You get \$5000 by twenty. We will tell you how to pay us. Don't tell the police. If you do we will send baby's eyes and ears."

The note was turned over to postomic inspectors. It also became known that Sheriff Traeger's office is planning to question a motion-picture actress and a department-store employee regarding babies that recently came to their homes.

According to Mrs. Roberts, her son's attorney, Leland J. Allen, is preparing a writ of habeas corpus in the event that the persons who have the baby will be located today. Mrs. Roberts declares that Judge Stephens has awarded full custody of the child to her son.

When Roberts called at the hospital where the child was born he declares he was denied permission to see it Later his wife's parents asserted in court that the child was adopted by a woman unknown to them, who took it at the door of the hospital.
